

## Senior Seminar Visuals Form - Type, Purpose, Plan

What visuals are you going to create for your presentation? How can you best convey your information to your audience? Are they going to be passive viewers or active participants for part of your presentation? What do you want them to get out of your presentation? These and other questions need to be addressed before deciding on your final visuals. Below is a form to aid you in the decision process. Fill out the form below as completely as possible. You will turn in a copy as well as share this with your partners.
